

Wrist Strap Instructions

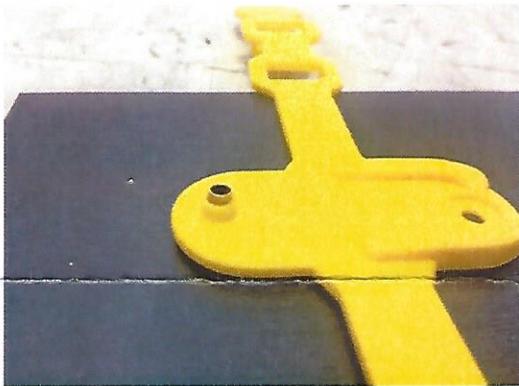

1. Check you have the equipment below.

2. Place one of the silver washers on top of the gold rivet, using the piece of laminate as a base.

3. Place the wrist strap over the gold rivet as shown below.

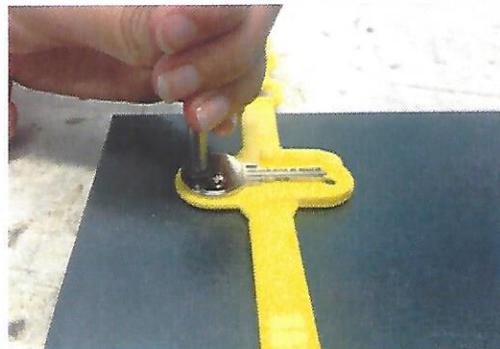

4. Then place the key onto the wrist strap as shown below.

5. Place the second silver washer over the top of the key.

6. Line up the punch so that the flat end of the punch is facing upwards and the other end has slotted inside the top of the rivet.

7. Hit the top of the punch several times with a Hammer.

8. Check that the gold rivet has flattened out, securing the key in place.
